

# RFID Antenna - BRA-26

BRA-26 is a near-field RFID antenna with an ultra-thin design, no blind zone, uniform field, etc. It is suitable for various applications like jewelry, retail POS, libraries, healthcare, etc.

## Tech Specs

Frequency Range	860MHz - 960MHz
VSWR (Voltage Standing Wave Ratio)	≤1.8:1
Relative humidity	5% - 95%
Impedance	50±1Ω
Connector Type	SMA-K (Customizable)

## Physical Characteristics

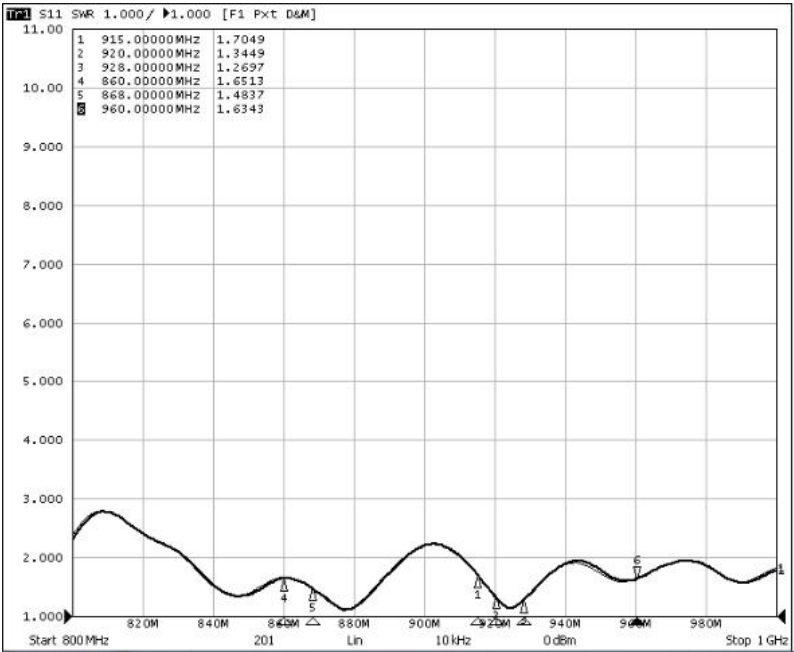

Dimensions	190mm×190mm×3mm
Weight	about 300g
Material	Plastics, PCB
Color	Black
Ingress protection	IP54
Operating temperature	0°C to +50°C
